J. E. BREWER CO.
ABILENE

the crops are as I have a nice 160 acre farm north of Abilene. The income is a great blessing to me. Wife and I was out on an evangelist trip north of San Jose and Palo Alto. Have been home over three months. Lately had an outing at Long Beach. Visited my old Kansas friend, J. Fulton, and other friends. Then on to San Pedro, Cal., in a mission; wife joined me there and had an opportunity to lift up the name of Jesus and visit friends. Glad to return to our home in Pasadena. We like it here the best. Glad Kansas is such a prospering state but California climate suits us best.

S. B. Hislop writes from Lockwood, Canada: Crops are very good in the Lockwood district and threshing wheat is the order of the day. It is turning out much better than expected after the rust scare. From 20 to 30 bushels per acre is very common. We only know of one field of oats being threshed yet, it was a 15-acre piece of summer fallow and threshed 91 bushels per acre, counting 28 lbs. to the bushel. We had a fine visit with Wm. Botz

and family last summer as they were touring the northwest, so if any of our old neighbors want to know about this country just ask "Bill." All the Kansas boys are well and getting along fine.

LUCKILY ESCAPES INJURY
IN COLLISION WITH AUTO
Another accident occurred yesterday afternoon when the auto of John Middleton collided with a bicycle ridden by Frank Niner, at the corner of Third and Buckeye and caused painful injuries to Niner. Niner going west and Middleton turning north from the west were both confused by another car going south and the collision resulted. Niner jumped from his wheel and held to the radiator of the machine, thus avoiding serious injury. He was badly bruised about the arm and shoulder. The bicycle is a wreck.
